Question 1

Correct

Mark 1.00 out of 1.00

Which Dockerfile instruction is executed at build time?

- ☐ a. ENTRYPOINT
- ☐ b. ENV
- ☒ c. RUN ✓
- ☐ d. CMD

Your answer is correct.

The correct answer is:
RUN

Question 2

Correct

Mark 1.00 out of 1.00

What is the purpose of the Docker Registry?

- ☒ a. Stores and distributes container images ✓
- ☐ b. Manages container networks
- ☐ c. Compiles code
- ☐ d. Runs containers

Your answer is correct.

The correct answer is:

Stores and distributes container images

Question 3

Correct

Mark 1.00 out of 1.00

What is the default port for the Kubernetes API server?

- ☐ a. 443
- ☐ b. 80
- ☒ c. 6443 ✓
- ☐ d. 8080

Your answer is correct.

The correct answer is:

6443

Question 4

Correct

Mark 1.00 out of 1.00

Match the following Dockerfile instructions with their correct description:

LABEL	Add metadata to an image	✓
ARG	Use build-time variables	✓
ENTRYPOINT	Specify default executable	✓
CMD	Specify default commands.	✓

Your answer is correct.

The correct answer is:

LABEL → Add metadata to an image,

ARG → Use build-time variables,

ENTRYPOINT → Specify default executable,

CMD → Specify default commands.

Question 5

Correct

Mark 1.00 out of 1.00

What file format is used to define a Docker container's environment?

- ☐ a. XML
- ☒ b. Dockerfile ✓
- ☐ c. JSON
- ☐ d. YAML

Your answer is correct.

The correct answer is:
Dockerfile

Question 6

Correct

Mark 1.00 out of 1.00

Which command lists all running Docker containers?

- ☐ a. docker run
- ☒ b. docker ps ✓
- ☐ c. docker stop
- ☐ d. docker images

Your answer is correct.

The correct answer is:
docker ps

Question 7

Correct

Mark 1.00 out of 1.00

The main purpose of a container is to _____.

- ☐ a. create virtual machines
- ☐ b. store data
- ☐ c. manage network traffic
- ☒ d. run applications ✓

Your answer is correct.

The correct answer is:
run applications

Question 8

Correct

Mark 1.00 out of 1.00

Which of these is a key difference between containers and VMs?

- ☐ a. VMs start faster than containers
- ☐ b. Containers are less portable
- ☐ c. Containers include a full guest OS
- ☒ d. Containers share the host OS kernel ✓

Your answer is correct.

The correct answer is:
Containers share the host OS kernel

Question 9

Correct

Mark 1.00 out of 1.00

The primary purpose of containers is to _____.

- ☐ a. replace physical hardware
- ☐ b. store large data
- ☐ c. decrease network latency
- ☒ d. isolate and package applications with dependencies ✓

Your answer is correct.

The correct answer is:

isolate and package applications with dependencies

Question 10

Correct

Mark 1.00 out of 1.00

What does a container image represent?

- ☒ a. A snapshot of the container's file system and configuration ✓
- ☐ b. A networking protocol
- ☐ c. A running instance of an application
- ☐ d. A virtual machine snapshot

Your answer is correct.

The correct answer is:

A snapshot of the container's file system and configuration

Question 11

Correct

Mark 1.00 out of 1.00

In serverless computing, which term refers to the ability for resources surrounding an app to change and adjust capacity as needed?

- ☐ a. scalable
- ☐ b. flexible
- ☐ c. extensible
- ☒ d. elastic ✓

Your answer is correct.

The correct answer is:
elastic

Question 12

Partially correct

Mark 0.67 out of 1.00

What are three characteristics of a virtual machine? (Choose three.)

- ☒ a. It is an isolated environment for applications 
- ☒ b. It includes a guest OS 
- ☐ c. it is a virtualised physical server
- ☐ d. It leverages the kernel of the host OS for quick starts
- ☒ e. It requires a hypervisor 
- ☐ f. It shares the underlying resources of the host OS

Your answer is partially correct.

You have correctly selected 2.

The correct answers are:

It includes a guest OS,

it is a virtualised physical server,

It requires a hypervisor

Question 13

Correct

Mark 1.00 out of 1.00

What are two challenges of cloud computing technologies? (Choose two)

- ☒ a. maintaining access control ✓
- ☐ b. utilizing generic host environments
- ☐ c. requesting additional resources
- ☐ d. maintaining configurational consistency of platforms
- ☒ e. managing costs ✓

Your answer is correct.

The correct answers are:
maintaining access control,
managing costs

Question 14

Correct

Mark 1.00 out of 1.00

What is a canary deployment?

- ☐ a. the use of two identical servers with load balancers to redirect traffic for an entire server as needed
- ☐ b. a production test using a chaos tool to inject random failures with a limited blast-radius
- ☐ c. a server-by-server switchover to a new release deployment
- ☒ d. a switchover of selected users to a new release deployment ✓

Your answer is correct.

The correct answer is:

a switchover of selected users to a new release deployment

Question 15

Correct

Mark 1.00 out of 1.00

Which load balancing technique will check the load status of multiple hosting servers and send the next incoming request to the server with the lowest load?

- ☐ a. IP hash
- ☐ b. canary
- ☐ c. blue-green
- ☒ d. least connections ✓

Your answer is correct.

The correct answer is:
least connections
